## Slight Reaction In Wheat Market Despite Buying

## Purchases for Export Fail to Check Decline on Lack of Support; Sentiment Is Mixed; Corn Holds Steady

Price changes in the wheat market were feverish yesterday, and although there was considerable pressure at times the market held fairly steady until near the close, when there was a sharp break, which left final quotations 14 to 14 1/2c net lower.

Underlying sentiment leaned more to the bear side and most of the leading commission houses commented freely on the evident turn of the export demand from America to the Argentine. The question of the Argentine surtax has not yet been settled, but although this is a factor with business, private cables received during the day from abroad indicated that Germany made recent purchases in the Argentine of about 200,000 bushels, while France credited with taking 740,000. At the same time, the demand here from Europe was less active, and the only business reported was for 100,000 bushels of Gulf wheat sold to Belgium. The lack of support from Europe has materially influenced the cash situation, and cash premiums have now followed the recent upturn in contracts.

In the local cash market No. 2 red and No. 2 hard were quoted at \$2.07 and \$2.08, respectively, for January shipment. The range of prices follows:

## Experts Call Deals in Grain Futures Necessary

WASHINGTON, Jan. 14.—Existence of future markets for speculation is a necessity in the grain trade, the House Agricultural Committee was told today by representatives of the Chicago Board of Trade, who appeared in opposition to legislation proposing regulation of the exchanges.

"Exchanges cannot function without speculation," declared Joseph P. Griffin, president of the Chicago Board of Trade, "and commodity prices inevitably fluctuate under monopoly."

Prices for wheat are fixed by the laws of supply and demand, James E. Boyle, professor of agricultural economics at Cornell University, testified. Prices for grain in the Chicago Board of Trade, in a general way, "reflect the supply and demand factors and meet the correct market test," he said.

The volume of future trade in Chicago, Professor Boyle estimated at four times the actual grain production, on which, he said, was collected a toll of only one-quarter cent a bushel, which paid for the insurance future. With-out future trade he estimated it would cost at least five cents a bushel to handle the grain of the country.

Preachers, lawyers, doctors, farmers and other men of moderate means constitute a large percentage of speculators, Professor Boyle said, adding that their elimination would be a calamity to the country.

## Corn Slightly Lower On Increased Receipts

The corn market was only moderately active and price changes were feverish, closing easy, with wheat at net declines of 1/2 to 3/4c. Receipts were again liberal at primary points and the apparent willingness on the part of the farmer to sell their corn gave rise to expectations of continued large arrivals for some time to come.

In the local cash market No. 2 yellow was quoted at 50c No. 2 mixed, 49c No. 2 white, 48c No. 2 red, 47c No. 2 hard, 46c No. 2 extra, 45c No. 2 super, 44c No. 2 extra, 43c No. 2 super, 42c No. 2
